**AIMS OF THE SOCIETY**

To promote

\*Research in electron and light microscopy, other combined visualization techniques and molecular biology tools applied to cutaneous biology and pathology.

\*Understanding of ultrastructure and function of human skin in health and disease.

**ORGANIZATION OF THE SOCIETY**

The Society is governed by a committee of 7 members. The officers of the committee are the President, the Secretary, the Treasurer and four other members. The board members are elected for a period of 5 years. The Committee is defined again every year at the Annual General Assembly.
